AMNEAL PHARMACEUTICALS

MUTICHAMBER LYOBAG FOR ONCOLYTICS

Address: 400 Crossing Boulevard, Fifth Floor, Bridgewater, NJ 08807
Phone: (908) 947-3120
Email: CustomerRelations@amneal.com
Website: amneal.com/tepadina

The patented multichamber flexible lyobag technology brings safety, stability and streamlined prep to oncology. The closed system protects medical personnel from the risk of exposure while delivering fast, accurate, needle-free preparation. The bag is ready for IV infusion immediately after activation. Shelf life once activated is 56 hours (2 days 8 hours) at room temperature or 7 days refrigerated.

4

HEALTH CARE LOGISTICS®

STAT STOCK®

Address: PO Box 25, Circleville, OH 43113
Phone: (800) 848-1633
Email: hcl@gohcl.com
Website: statstock.io

Stat Stock® is a web-based RFID replenishment system that allows users to quickly locate expired or recalled items in bins, kits, and carts and be recall ready for FDA 21 CFR Part 7. Users can also manage drug shortages, reduce manual drug replenishment errors and track nontraditional items such as supplies and equipment. Stat Stock is available with no contracts or tag purchase minimums.

MEDI-DOSE, INC. / EPS, INC.

HIGH ALERT AND LINE TRACING LABELS

Address: 70 Industrial Drive, Ivyland, PA 18974

Phone: (800) 523-8966

Email: customerservice@medidose.com

Website: medidose.com

Confusion of IV lines can have catastrophic results. Standard organizations have long recommended labeling and reconciling IV lines, but facilities have struggled with implementing workable systems. Medi-Dose/EPS Line Tracing Labels help pharmacy and nursing overcome this challenge, enabling line traces for all IV and catheter lines.

8

MEDI-DOSE, INC. / EPS, INC.

BRIGHTLY COLORED LID-LABEL COVERS

Address: 70 Industrial Drive, Ivyland, PA 18974

Phone: (800) 523-8966

Email: customerservice@medidose.com

Website: medidose.com

Medi-Dose has added five brightly colored Lid-Label Covers—Blue, Red, Orange, Green and Pink—to call attention to specific classes of drugs. All our

Lid-Label Covers provide a tamper-evident, moisture-resistant seal. When printed with our MILT® software, barcodes, graphics, special fonts, tall man lettering, shapes, logos and symbols can be utilized to minimize the potential for medication errors.

11

MEDI-DOSE, INC. / EPS, INC.

MPB – MULTI-PURPOSE BLISTERS

Address: 70 Industrial Drive, Ivyland, PA 18974

Phone: (800) 523-8966

Email: customerservice@medidose.com

Website: medidose.com

To help with your packaging needs as well as your USP Chapter compliance,

Medi-Dose has also introduced the MPB – Multi-Purpose Blisters. These two new, larger sized blisters were designed to accommodate special items and situations, like oversized tablets, unit-of-use packaging, suppositories, compounded medications and even items that are already packaged but not barcoded or labeled correctly for your environment.

9

MEDI-DOSE, INC. / EPS, INC.

DETECT-A-DOSE LID-LABEL COVERS

Address: 70 Industrial Drive, Ivyland, PA 18974

Phone: (800) 523-8966

Email: customerservice@medidose.com

Website: medidose.com

Proper inventory counts, especially for controlled substances, are of paramount concern for pharmacists

and nurses. This is why Medi-Dose created the new Detect-A-Dose Lid-Label Cover to provide quick visual identification of meds within its industry leading unit-dose packaging. The underside of the new label is printed with a highly contrasting black & white pattern to make missing doses readily apparent. Tilt the sealed package one way and light-colored medications contrast with the dark background. Tilt the opposite way and dark-colored medications contrast with the light background. Like the entire Medi-Dose product family, this is an elegantly simple and effective solution to a difficult problem.

12

MEDI-DOSE, INC. / EPS, INC.

OINTMENT LID-LABEL COVERS

Address: 70 Industrial Drive, Ivyland, PA 18974

Phone: (800) 523-8966

Email: customerservice@medidose.com

Website: medidose.com

Medi-Dose announces the release of its new Lid-Label Covers specifically designed for packaging ointments. These newly engineered labels enable you to unit-dose ointment in all the same Medi-Cup Blisters pharmacists have always trusted with their solid meds.

Customers using the MILT software can easily print & package ointments to USP Class A standards just as quickly as they already do now for their solid meds.

13

OMNICELL

XR2 AUTOMATED DISPENSING SYSTEM

Address: 4220 North Freeway,
Fort Worth, TX 76137
Phone: (877) 415-9990
Website: omnicell.com

The XR2 Automated Central Pharmacy System is an advanced robot that automates critical workflows to maximize inventory control, increase operational efficiency and improve safety in medication dispensing. This scalable and flexible technology streamlines any

medication distribution model, customizable based on the unique needs of your pharmacy operations.

16

XiFin, Inc.

XIFIN® EMPOWER RCM

Address: 12225 El Camino Real,
San Diego, CA 92130
Phone: (858) 793-5700
Email: info@XiFin.com
Website: XiFin.com

Empower RCM is the No. 1 client-rated RCM. With embedded AI, it provides an end-to-end AR process for medical billing. It includes real-time eligibility and benefits verification, PA workflows, denials and appeals automation, provider-facing portals, and business intelligence. Plus, it can be initiated within workflow using a NCPDP or clinical pathway. With XiFin, pharmacies can expect improved operational efficiencies, reduced denials and maximized reimbursements.

14
