HEALTH CARE LOGISTICS®

EZ GRID® SYSTEM

Address: PO Box 25, Circleville, OH 43113
Phone: (800) 848-1633
Email: hcl@gohcl.com
Website: gohcl.com/unit-dose/ez-grid-system

The EZ Grid® tablet repackaging system provides precise label-to-blister alignment for unit dose packaging. Its durable aluminum frame and locator pins ensure stability and accuracy, while interchangeable Round, Slot and Square inserts accommodate various blister and label combinations. Pairings meet USP <671> requirements for packaging integrity and flexible pharmacy workflows.

HEALTH CARE LOGISTICS®

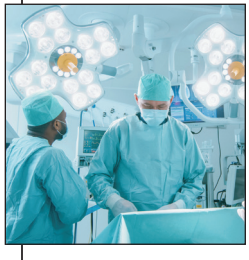

STAT STOCK®

Address: PO Box 25, Circleville, OH 43113
Phone: (800) 848-1633
Email: hcl@gohcl.com
Website: statstock.io/

Managing drug expirations, shortages, and recalls requires fast, accurate updates. Stat Stock®, HCL®'s RFID-based inventory management system, tracks tagged medication and records changeouts automatically. Real-time expiration tracking, recall notices, and alerts help streamline replenishment, reduce waste, and support compliance. Unlimited access to cloud-based software and technical support is included.

MEDI-DOSE, INC. / EPS, INC.

BRIGHTLY COLORED LID-LABEL COVERS

Address: 70 Industrial Drive, Ivyland, PA 18974
Phone: (800) 523-8966
Email: customerservice@medidose.com
Website: medidose.com

Medi-Dose has added five brightly colored Lid-Label Covers—Blue, Red, Orange, Green and Pink—to call attention to specific classes of drugs. All our Lid-Label Covers provide a tamper-evident, moisture-resistant seal. When printed with our MILT® software, barcodes, graphics, special fonts, tall man lettering, shapes, logos, and symbols can be utilized to minimize the potential for medication errors.

6

MEDI-DOSE, INC. / EPS, INC.

DETECT-A-DOSE LID-LABEL COVERS

Address: 70 Industrial Drive, Ivyland, PA 18974
Phone: (800) 523-8966
Email: customerservice@medidose.com
Website: medidose.com

Proper inventory counts, especially for controlled substances, are of paramount concern for pharmacists and nurses. This is why Medi-Dose created the new Detect-A-Dose Lid-Label Cover to provide quick visual identification of meds within its industry leading unit-dose packaging. The underside of the new label is printed with a highly contrasting black & white pattern to make missing doses readily apparent. Tilt the sealed package one way and light-colored medications contrast with the dark background. Tilt the opposite way and dark-colored medications contrast with the light background. Like the entire Medi-Dose product family, this is an elegantly simple and effective solution to a difficult problem.

7

MEDI-DOSE, INC. / EPS, INC.

HIGH ALERT AND LINE TRACING LABELS

Address: 70 Industrial Drive, Ivyland, PA 18974
Phone: (800) 523-8966
Email: customerservice@medidose.com
Website: medidose.com

Confusion of IV lines can have catastrophic results. Standard organizations have long recommended labeling and reconciling IV lines, but facilities have struggled with implementing workable systems. Medi-Dose/EPS Line Tracing Labels help pharmacy and nursing overcome this challenge, enabling line traces for all IV and catheter lines.

8

MEDI-DOSE, INC. / EPS, INC.

MPB – MULTI-PURPOSE BLISTERS

Address: 70 Industrial Drive, Ivyland, PA 18974
Phone: (800) 523-8966
Email: customerservice@medidose.com
Website: medidose.com

To help with your packaging needs as well as your USP Chapter compliance, Medi-Dose has also introduced the MPB – Multi-Purpose Blisters. These two new, larger sized blisters were designed to accommodate special items and situations, like oversized tablets, unit-of-use packaging, suppositories, compounded medications, and even items that are already packaged but not barcoded or labeled correctly for your environment.

9

MEDI-DOSE, INC. / EPS, INC.

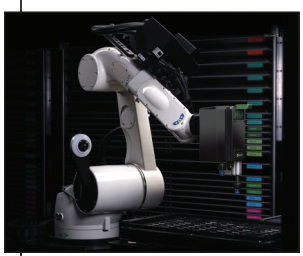

OINTMENT LID-LABEL COVERS

Address: 70 Industrial Drive, Ivyland, PA 18974
Phone: (800) 523-8966
Email: customerservice@medidose.com
Website: medidose.com

Medi-Dose announces the release of its new Lid-Label Covers specifically designed for packaging ointments. These newly engineered labels enable you to unit-dose ointment in all the same Medi-Cup Blisters pharmacists have always trusted with their solid meds. Customers using the MILT software can easily print & package ointments to USP Class A standards just as quickly as they already do now for their solid meds.
